**INFRASTRUCTURE AND TECHNICAL SERVICES
REPORT**

ITEM NUMBER	16.3
TITLE	Update on 14 Chardon Street Occupancy and Acquisition
REFERENCE	476018
AUTHOR	Sharon Hillen, Director of Infrastructure & Technical Services

RECOMMENDATION

- (a) **That Council receive and note the report on the update of the acquisition and occupancy of 14 Chardon Street.**

BACKGROUND

For several years Council has worked in various partnerships with other Councils – Vic Daly and Katherine Town Council, to acquire land to conduct Council field operations from as well as attempting to put all administration staff under the same roof.

Times change and so do the priorities of the organisation. One of our 2 current Licenses to Occupy has been withdrawn as the ablution facilities servicing the IT and Communications Business Unit has experienced major breakdowns and can not be guaranteed in the near future. The remaining license is a large laydown area at the rear of the property which is currently under review.

With the down sizing of the Councils field operations the urgency to acquire new land and develop a purpose built facility has now changed. It is recommended that Council abandon its interest in 14 Chardon Street and review the needs of the organisation. It is proposed that the remainder of the Emungalan Road Staff and operations would be relocated to the 29 Crawford Street property, requiring further extensions to the office which would cater for the current overcrowding and the 11 remaining staff at Emungalan Road Depot.

ISSUES/OPTIONS/SWOT

A new longer term development should be investigated to incorporate the development of a purpose build facility taking into consideration the needs of the whole organisation and the Katherine Zoning Scheme. This project has the potential of being raised with the NTG as a major project.

FINANCIAL CONSIDERATIONS

A variation to budget will be called for once the Crawford Street Extension has been scoped.
